ALLOWABLE SUBJECT MATTER

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. James Pingor on 04 August 2005.

The application has been amended as follows:

Claim 28 has been amended as follows:

28. A computer-implemented control system ~~signal~~-that facilitates communication ~~communicates~~ between managed and unmanaged code, comprising:
 - a control signal that communicates data between the managed and unmanaged code; and
 - a caller associated with the managed code, the caller invokes an object related to the unmanaged code *via* the control signal, the caller's code includes an in-lined stub that facilitates communications and execution management between the managed and the unmanaged code.

3. The following is an examiner's statement of reasons for allowance:

Nilsen fails to disclose or suggest a caller (within managed code) including an **in-lined stub** that facilitates communications to and execution management of an unmanaged object (unmanaged code) as recited, in various forms, in each of the independent claims. Detailed reasons can be found on pages 10-13 of applicants' response filed 16 May 2005.

None of the prior art of record, taken alone or in combination, provides sufficient disclosure to teach or suggest the claimed in-lined stub for facilitating communications and execution management between managed and unmanaged code.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian Goddard whose telephone number is 571-272-4020. The examiner can normally be reached on M-F, 9 AM - 5 PM.
